

Being Aware and Feeling Safe when in Church

1. Be aware of social distancing, don't approach your friends in Church, wait until you have left the building.
2. Listen and follow all instructions you are given, whilst our personal opinions are important and valid, whilst we are in the Covid19 Pandemic, we all have a duty to care for everyone around us – following instructions is how we can do this.
3. Other than making the Mass responses during Holy Mass, we should all remain silent whilst inside Church.
4. If you see someone else is not applying the social distancing rules, please gently remind them.
5. If we don't stick to the rules, we may be told we have to stop public Masses.
6. **Face masks/coverings** – these are compulsory if sat less than 2 metres from someone else outside of your household. If you feel more at ease wearing a face mask/covering in church, please feel free to wear one.

**Any one of us could become infected with Covid19 when around others - whilst shopping, at work and yes, even at Church. It is extremely important that we all take this virus seriously to protect ourselves and others.*
